

**Mansfield Public Schools
Strategy for District Improvement**

Vision:

Our vision of the ideal school is one in which all students are actively and intellectually engaged in their learning as a result of the instructional practices that are personalized, differentiated, innovative and designed to challenge their thinking and understanding. The result of our collective efforts is for all students to achieve their personal best and become meaningful contributors to our society.

District Goals

EXPANDING OFFERINGS: Examine, evaluate and expand our non-core and core offerings/programming to provide diverse educational opportunities for students, to meet individual needs and allow them greater ownership of their learning.

Teaching all students: To create and implement a culture of unified and shared instructional practices that advance the belief that we share the responsibility for teaching all students utilizing strategies that include authentic, relevant, student centered research based tools.
