Michael T. Connolly
Assistant Superintendent

Edward S. Donoghue
Assistant Superintendent

June 8, 2018

Dear Parent(s) or Guardian(s):

The Mansfield School Department has been notified that the Department of Public Works has scheduled construction to begin on the North Main Street underpass on or about June 12, 2018. Construction is expected to last six (6) months.

During construction, the North Main Street underpass will be changed to one-way going North. The road is not wide enough to allow two-way traffic during construction. After meeting with the Mansfield Police and Fire Departments, and after considering various alternatives, it was determined that this was the safest way to maintain traffic during construction activities. An established detour route through Foxboro is shown on the attached detour map.

Please note: the following buses will be impacted by the construction. The construction should not delay the morning pick-ups; however, the afternoon drop offs may be delayed. Please plan accordingly.

If you have any questions or concerns, please contact Jodi Correia at the Business Office, 1-508-261-7503, or Mary Neville at Connolly Bus, 1-508-337-6400.

Buses Impacted:	High School/Qualters Middle School:	Bus #103
	Jordan/Jackson Elementary School:	Bus #204
	Robinson Elementary School:	Bus #308
	St. Mary's	Bus #230

Edward S. Donoghue
Assistant Superintendent

All students, regardless of race, color, sex, religion, national origin, limited English proficiency, sexual orientation, gender identity, disability, or housing status, have equal access to all programs including athletics and other extracurricular activities.
