KEY EVALUATION FINDINGS AND/OR NEXT STEPS

DEFINITIONS

Effective Progress

- Increased knowledge and skills in the general curriculum, including social/emotional, according to student's age, capabilities, and potential. See 603 CMR 28.02(17)
- Effective progress is NOT determined by passing grades or being promoted from grade to grade.

General Curriculum

- Includes the Mass. Curriculum Frameworks, MCAS, district curriculum and preschool and early childhood programs offered by the district, academic and non-academic offerings of the district, and vocational programs and activities. See 603 CMR 28.02(17)

Specialized Instruction

- *Is* special education. It means that the content, methods of teaching or grading is changed to meet the needs of the student so the student can learn the general curriculum

Related Services

- Includes transportation, developmental, corrective and supportive services to help the child benefit from special education, such as speech-language pathology, psychological services, physical and occupational services, and many others

Accommodations

- Changes in the learning environment so student can access the same curriculum as other students. Example are: graphic organizers, digital books, preferred seating, pencil grips and extra time on tests. Accommodations are included on the IEP

Free and Appropriate Education (FAPE)

- Services that allow student to make effective progress toward reaching IEP goals

Least Restrictive Environment (LRE)

- Student is placed, to the maximum level appropriate, with students who are not disabled. Removal from general education classes happens when inclusion with the use of additional aids and services cannot be achieved appropriately

IEP to the Parent

- If you received a goal summary and service delivery grid at your Team meeting, expect the IEP in 2 weeks
- If you didn't receive these documents at the Team meeting, expect the IEP in 5 days

Parent's IEP Response Options

- Respond within 30 days or sooner so new services can start
- Parents may:
 1. accept the IEP
 2. reject the IEP or
 3. accept in part/reject in part
- All portions of the IEP that are accepted must be implemented immediately.
- The lack of a service can be rejected (or rejected in part)
- In Massachusetts, parents can exercise "Stay Put" rights so that previously accepted services or placement remain in place until the issues are resolved
- Placements may be accepted or rejected

IEP Changes after the Team Meeting

- If the school and a parent agree to a change to the IEP, the school will send an amendment to the IEP for the parent's signature
- The school cannot change an IEP on its own. The team may also be reconvened to discuss the student and the IEP

Parents or their experts have the right to observe a proposed program: DESE Advisory SPED 2009-2. Parents are also entitled to review their student's records 603 CMR 23.07(2).

Transition Planning Begins by Age 14

- The Transition Planning Form (TPF) is completed at the Team meeting before the IEP is written.
- The TPF is not part of the IEP but is used as a roadmap in drafting the IEP and planning the transition to adult life.
- Students are to be invited to the Team meeting for the year in which they turn 14.
- When student reaches the age of majority at 18, student can sign IEP and made own education decisions unless student signs a document:
 1. Giving education decision making control to parent or
 2. Sharing decision making with parents.
- Parents can also become court appointed guardians in some cases.

RESOLVING DISAGREEMENTS

Request an Additional Team Meeting

- Or a meeting with the special education director, principal or superintendent

Request an Independent Educational Evaluations (IEE)

 - 1) If parents disagree with an evaluation (must be within 16 months) and meet free or sliding scale financial standards; see the rules 603 CMR 28.04(5) and 34 CFR 300.502
 - 2) If the school failed to assess an area. The school must dispute the need for a publically funded IEE within 5 school days
 - 3) Parents may always obtain an IEE at their own expense
- The Team must consider an IEE within 10 school days of receipt but is not bound by the report
- Do your best to have the expert performing the IEE attend the meeting in person or by phone so he/she can explain the findings and answer any questions
